

A unique blind fastener designed for the fastening of commercial vehicle floors. This fastener is fast, easy to use and gives superior fastener performance over conventional flooring fastener systems.

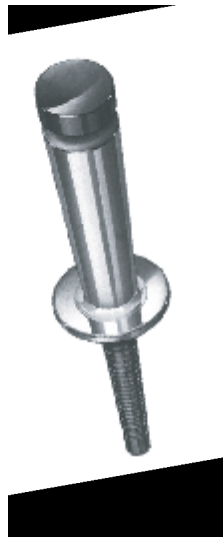

FloorTight

Features include:

- **Self Countersinking**
No pre-countersinking required. This fastener countersinks without damage to flooring panels.
- **One-Man One-Sided Installation**
Easily installed, non labour intensive unlike conventional fasteners.
- **Superior Performance**
High shear, clamp and tensile. No shifting or loosening.
- **Removable**
Allows easy access under floor panels.
- **Watertight**
Prevents moisture ingress into floor panels. Gives long life.

Typical applications include:

Commercial vehicle body building and applications where floors need to be securely fastened.
