

A Fastener specifically designed for the commercial vehicle body building industry where G.R.P. (glass reinforced plastic boards) are used. This fastener covers a wide grip range, is T.I.R. approved, gives improved security to commercial vehicles and has excellent cosmetic appearance qualities.

Hucktainer Lockbolts

Features include:

- High Uniform Installed Values

Gives the uniform clamp required everytime without dimpling side panels.

- Fast & Easy Installation

Does not require highly skilled labour, reduces rework and error.

- Unique Star Lock System (Optional)

When used with "Star Lock" this fastener can be installed by one man instead of two.

- Plastic Coloured Heads (optional)

Encapsulated heads can be colour co-ordinated to your side panel colouring.

- Low Profile Head Design

Does not bulge or protrude, gives good cosmetic appearance to vehicles.

Typical applications include:

Commercial Vehicle Body Building
 Suitable for use on rubber swing doors
 and in the construction of G.R.P. board type products
