

A Blind Fastener which combines reliability and strength and is suitable for a wide range of materials.

Magna-Tite

Features include:

- Watertight

The Magna Tite range provides a waterproof bond to a wide range of materials with its special applied seal.

- Wide Grip Range

The Magna Tite fastener is suitable for a wide range in the thickness of materials to be fastened.

- Strength

With its wide blind side footprint the Magna Tite features a wide load bearing surface for extra strength, this eliminates fastener pull through in thin materials.

- Fast Installation

1200 Magna Tite fasteners per hour can be installed, the technique for installation takes only ten minutes to master.

Typical applications include:

Sheet Metal Fabrication
Closed Tube Surfaces
Prisons and the Security Industry
Fibreglass Protrusions
OEM and repair applications
Composite Trailer Construction
Heating Ventilation and Air Conditioning
Electrical Equipment
